

CLÉO

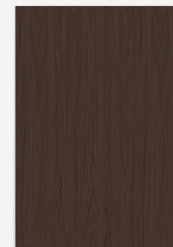

The story of Cléo begins with the meeting of Chloé in 2023. Inspired by the elegant and comfortable shapes of his sister, Cléo is a «modern heritage» bed integrated in the new area of product, where elegance, tradition and ecology are joined. Made with natural and durable material, linen fabric and oak wood, Cléo is close to the Earth and shows this particularity with its brown natural gradient tones. Open to the outside with stretched shapes and comfortable with an upholstered headboard (Chloé's inspiration), Cléo is a bed soft, warm and eco-friendly to have your better dreams.
