

ANDE

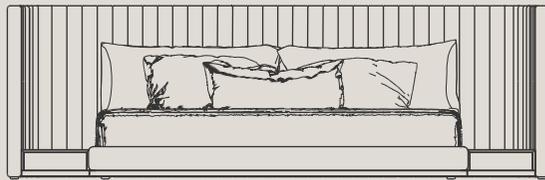

Arts and Crafts is a movement that gave birth to magnificent examples of craftsmanship. The Ande bed is a project that blends natural simplicity, functionality, and traditional craftsmanship, whose beauty can be seen in the upholstered headboard or wooden base. The texture of walnut wood forms unique details that are beautifully complemented by a soft, woolen bouclé fabric. Ande is a bed that creates a zone of extraordinary comfort. It is an invitation to slow down, rest, and enjoy a peaceful sleep. It is a celebration of traditional craftsmanship and a commitment to details quality.
