

# *\_a room within a room*

Meticulously crafted from the finest English oak, our bed combines timeless mortise-and-tenon joinery with the elegant artistry of Arts and Crafts-inspired reed weaving. The headboard is designed for both style and functionality, offering a comfortable cushioned surface for reading or working in bed. The elegant hanging light shade can be adjusted or dimmed as required, from the thoughtful storage behind the headboard, which integrates built-in compartments for books, light control, and charging points, accessed with ease from either side of the bed.

Transform your bedroom into a personal haven with interchangeable drapes that reflect your mood or the changing seasons. The fabric tracking is concealed within the upper bed frame to accommodate a choice of stunning ombre panels, one naturally dyed with Indigo the other with Madda plants. Customers can choose their favourite tones or opt for both seasonal sets to swap between Spring/Summer and Autumn/Winter, or a choice of a natural or white linen echoing the motif of the headboard in embroidery across the bottom of each panel.
